

RETURN ON INVESTMENT:

CIMASOFT solutions will empower your organization by controlling and streamlining your daily processes and procedures.

Efficiency

- Organization will shorten cycle times and reduce errors to maintain production and increasing workloads.
- Staff members will reduce time required for daily operations allowing more time to handle exceptions and process improvement.
- Systems will consolidate data and integrate processes to eliminate redundant data entry and provide real-time information sharing.

Protection

- Consolidated in-house data storage provides security control and easy backup of sensitive information.
- Controlled processes minimize exposure, prevent errors and shorten training time.
- Automated procedures quickly and consistently identify critical results.
- Standard Microsoft technology and optional source code escrow insure system availability.

Continuity

- Minimize impact of changes in management and staff.
- Simplify Cross training of staff to cover absences, event support and staff changes.
- Optimize and track changes in policies and procedures.

SOLUTION OPTIONS:

CIMASOFT Solutions immediately provide the highest priority benefits and allow for easy future additions and enhancements.

A modular approach and functional options provide a complete solution rather than multiple separate products. Your solution will include our software product modules molded with functional options to fit your specific process for an overall integrated solution. This approach delivers you the right solution, implemented the right way.

PAYMENT OPTIONS:

Payment for your solution can be split into partial payments. Choose either two (50% split) or three (40%, 30%, 30% split) payments. This provides flexible budget and implementation options.

The deposit payment will begin the process of configuring and implementing your solution. Additional payments are not due until your organization has approved and accepted a successful implementation.

Money Back Guarantee: We offer a full money back guarantee at six months after the deposit. If you are not satisfied with the solution, we will return your data and money with no questions asked.

Your best Solution Guaranteed:

1. Modular Solutions provide a Streamlined Custom Fit
2. Standard (Microsoft) Technology provides Stable and Scalable Performance
3. Accessible, Knowledgeable and Friendly Team provides Dependable Support

Our Experience spans more than 20 years designing, developing, integrating and supporting global software solutions. We have designed our Gaming Commission Solutions over that last 8 years working closely with multiple Tribal Gaming Commissions in New Mexico. We are dedicated to providing the best Tribal Gaming Commission Solutions, we guarantee it.
